

# The George and Dragon Wine List

We have invested the same amount of passion and commitment in our wine list as we have with our food. With a criteria of sourcing, wherever possible, from small family run vineyards, we have created what we think is one of the most interesting and diverse selections in Cumbria. Even by the glass we offer a huge choice to suit every palate and pocket.

Currently, buying locally produced wine is not an option in the North West of England, so we have endeavoured to do the next best thing. As many of the wines as possible are bought from estates, or small farms, which are run by individuals, or families, with a strong link to their local community.

Just like the Lowther family have and just as it should be.

The inside front page (opposite) is a selection of wines from proprietor, Charles Lowther's, own private cellar. They are particularly noteworthy as they benefit from having had a chance to mature and are in perfect condition to enjoy now.

The list opens with our selection of wines available by the glass. The back page has a small selection of half bottles, which are quite useful, as well as some wines we offer in magnum (equivalent to two bottles) These look mightily impressive on the table if you are a large party!
